

VOCALIS

VOCALIS POC SIMPLY SUPERIOR

VOCALIS POC

VOCALIS POC + WEBGATE

VOCALIS POC is Network agnostic, and not affiliated with any radio manufacturer. VOCALIS POC service is worldwide with over 30 servers located around the Globe.

- ❑ Open Borders! Complete Coverage with SORACOM.IO global SIMS
- ❑ Wide range of hardware, including iOS and Android Smartphones.
- ❑ LMR interface includes GPS and two-way Texting.
- ❑ WebGate Screen displays Two Way-Texting, IoT Hardware & GPS tracking of field workers.
- ❑ VOCALIS is LINUX based. Note! Android is a sub-set of LINUX.
- ❑ Streaming Video from Drone Ground Controllers to multiple Teams over 4G.
- ❑ VOCALIS links to a local STARLINK Hub over Wi-Fi.

VOCALIS, in its own CLASS!
LINUX delivers streaming video

WORKS WITH A WIDE CHOICE OF HARDWARE

VOCALIS works with a wide choice of Android or iOS devices including personal Smartphones and other 3rd. Party terminals using LINUX, Android or iOS.

VOCALIS is linked to Datalink's WebGate providing a bridge to LMR-PMR radios capable of processing GPS and two-way text messaging.

Datalink recommends the BoxChip S900B for 4G and the S900A for dual mode DMR and 4G

PTToC VEHICLE TERMINALS

The ANYSECU 4G-W2

The ANYSECU Dash Mounted 4G-W2 allows easy access by drivers. The 4G-W2 PTT Radio is the perfect choice for the Driver who wants a larger display.

Audio quality is loud and clear.

REDALERT PERSONAL SOS PROTECTION

RedAlert works over 3G-4G, LMR Networks and the Iridium Satellite Network.

RedAlert runs in the background and In an emergency, an LMR user presses the radio's SOS button or a Smartphone user just touches a button for two seconds to send an SOS alert with GPS location and an optional text message to a remote Security Desk.

The two seconds prevent false SOS alerts.

GPS updates are programmable with a minimum update of two seconds.

RedAlert is included with VOCALIS POCG

Most Commercial Drones are compatible with Datalink's VOCALIS

Streaming Video can be routed from Drone Ground Controllers over 4G to remote VOCALIS Server Hubs, Where the live feed can be relayed to multiple Situation Commander Tablets or large-screen Smartphones. In locations where 4G does not exist, a StarLink bridge can be added on a temporary or permanent basis.

WEBGATE SCREEN

The screenshot displays the Datalink Systems WebGate interface. At the top, the logo "DATALINK SYSTEMS" is visible, along with navigation icons and a status bar showing "Auto Updated: 10:51:55 a.m.". The main interface is divided into three sections:

- Left Panel (Assets):** Contains a navigation menu with "Assets", "Users", "Groups", "Drivers", "Fences", and "POI". Below this is a filter section for "Assets" with a dropdown set to "All Groups" and a search bar containing "10000". It shows a list of asset groups: "FIRELINK" (33 Hidden), "GLOBALM2M" (2 Hidden), and "MACKAYMARINE". Under "FIRELINK", several assets are listed, including "NAL-test", "ParthIndia", "ParthIndia2", and "Sandi".
- Center Panel (Map):** Displays a Google Map of Pentiction, BC, Canada. A brown line indicates the GPS track of the selected asset, "SHOUT NS". Landmarks such as "Safeway Pentiction", "Pentiction Regional Hospital", "Walmart Supercentre", and "Pentiction Regional Airport (YYF)" are labeled. A legend at the bottom of the map shows "Selected Asset: SHOUT NS".
- Right Panel (Messages):** Shows a list of messages. The most recent message is an "Emergency Alert" from "Clive" (3 months ago) with a status of "Resolved" and a timestamp of "2024-05-28". Other messages include "Stopped" and "Started" notifications for "RS1115 - 8055" and "Hector" (3 months ago) with a status of "I'm OK".

GPS track all assets, machines, and personnel. WebGate Screen accessed through any Web-Browser with approved credentials

Datalink Systems LLC

- Software developer since 2000
- Specializing in custom data solutions with a hands-on approach
- World-wide commercial and government installations
- Multiple networks, including NEXEDGE, IDAS, P25, DMR 4G, LTE, Starlink, Iridium, Globalstar, Thuraya Satellites.

Weblink Corporation is the Global Distributor for all Datalink Systems LLC applications and bespoke developments.
